

Havenwood Heritage Heights
A Continuing Care Retirement Community

January 27, 2021

Dear HSC Residents and Families,

Today was the first of two COVID-19 vaccine clinics that we are holding this week here at Havenwood Heritage Heights. Once today's clinic is completed, all residents in the Health Services Center will have had the first round of the COVID-19 vaccine!! Tomorrow, the majority of the HSC residents will have their second dose of the COVID-19 vaccine. I am very excited and proud of this accomplishment.

We received an updated this afternoon, that two staff members who work on Melody Lane have tested positive for COVID-19. Melody Lane residents and staff on will be on quarantine starting today and ending on 2/11/21.

The community transmission level of COVID-19 continues to decrease, which gives us some hope that we will soon be able to revisit resuming indoor social visits. I am looking forward to the day when that announcement is in this letter!

We are planning a "guess who" game with residents next week and need your help! Can you scan and send me pictures of your HSC loved one when they were younger? And to clarify the younger the better!

Thank you again for your continued support and please reach out to me via email at Sweaver@hhinfo.org or by phone at (603)-229-1194 if you have any questions or concerns.

Suzanne Weaver, NHA

Health Services Center Nursing Home Administrator
