

Havenwood Heritage Heights

A Continuing Care Retirement Community

April 23, 2021

Dear HSC Residents and Families,

I wanted to reach out and notify you all that an HHH staff member who works on the Heritage Heights campus has tested positive for COVID-19. This staff member has not worked in the Health Services Center, so this will not change any of the reopening steps that we currently have in place.

We were already scheduled to test all of our staff this coming Monday 4/26, as part of the Surveillance Testing Program through the State of NH. I will provide an update after we get those test results back.

Please reach out to me via email at Sweaver@hhinfo.org or by phone at (603)-229-1194 if you have any questions or concerns.

Suzanne Weaver, NHA
Health Services Center Nursing Home Administrator
